Will All in Favor of a Better Church...

Please Lend Us a Hand?

Lending a hand and volunteering to work on our Capital Campaign promises to be a “hands down” great experience. You’ll get the chance to meet and work with many great people. You’ll also be helping to raise funds for a needed and worthy cause, and you’ll be helping to build an even better church.

It promises to be a good time without taking a lot of time...an effort that will be richly rewarding in many ways and is much easier than you might otherwise think.

So please join the people listed on the back of this flyer; lend a hand and volunteer to help with our campaign. Many hands make for light work and by lending *your* hand, you’ll be helping to assure both a successful campaign and an even better church.

FAQ's

Q: Why are there differences, some being large differences, between the Giving Opportunities? For example, does it really cost \$150,000 to renovate the Hand Bell Room?

A: Great question! As you will notice in all campaign materials, there is a paragraph accompanying the gift opportunities that says, *"Prices of the various items listed are not necessarily reflective of the component's cost, but rather the value of the area or item and the gift needs and abilities of our community."* This means that the costs are more reflective of the prominence of the gift opportunity, versus the actual cost of that opportunity.

Take your example of the Hand Bell Room; in comparison with the other like-gift opportunities like the Multi-Purpose Rooms, Bathrooms and Storage Rooms, the Hand Bell Room has more meaning and prominence because it has a specific function that might be of higher interest to someone who would like to gift that special space, as opposed to a Multi-Purpose Room that has a more generic use. Hence, the Hand Bell Room is at a higher gift level because of the meaning and prominence behind the space.

Finally, if you add up all the gift opportunities for the Education Wing, you'll find that the total is commensurate to the actual \$1.5 Million cost of the Education Wing renovation, which is another reason for these varying gift levels.
